Summary

I'm a friendly and responsible developer with 2 years of studying Front-end where I create cool front-end projects.

Education

School of Shklo named of Marian Korchak 1-3 grade
September 2015 - Present

Creator IT Academy
March 2021 - Present

/ Studied html, css , js.
/ Now studying React.
/ Work in team.

Skills

/ Html , Css, Js.
/ Scss, Pug, Less , Stylus.
/ React in studying.
/ Methodologies Bem and Scrum.
/ Node.js, Express.js, MongoDB, Gulp , Telegram-bot-api.
/ OOP methods, Json, Jquery.
/ Fetch , Axios.
/ localStorage/sessionStorage, cookies.
/ Git , GitHub, GitLab, BitBucket.
/ Figma and Photoshop.
/ Aos, Tippy.js, Typer.js, Jquery, Formsfree, Chart.js, Three.js .
/ Bootstrap , Tailwind(just tried).
/ Asana, Jira, Tic Tac.

Projects

Creative Depo

Creative Depo is a store of Ukrainian merch
It is one of the best projects and it is also the last my project.
In this project I improved my work in team and skills in React.
In this project I used:

/ React
/ Scss
/ Adaptive development

@2022

Greenshelter

Greenshelter is a charity organization for dogs.
Greenshelter is a team project where I communicate with the team where I do one screen. And also this project was written on React.
In this project I used:

/ React
/ CSS
/ Adaptive development

link: Greenshelter.onrender.com

@2022

Rick and Morty

It's one of my favorite projects because I felt that real task from IT company.
Rick and Morty is a test project to Pecode.
On this site you can see searching characters, locations, also you can filter it by some parameters. And in MyList you can write episode that you want to watch.
This project was written on React .
In this project I used:

/ React
/ React hooks
/ CSS
/ Adaptive development
/ Aos
/ Fetch API
